ISRAEL IFEDAYO

Lagos, Nigeria | ifedeejoy@gmailcom | +234-903-521-7974

Freelancer I'm a software developer with four years of experience designing and developing software for small and medium-sized businesses. I've implemented code that has had a positive impact on the businesses they were written for. I was responsible for full lifecycle development of next-generation software, from initial requirement gathering to design, coding, testing, documentation and implementation. Known for excellent client-facing skills, I have participated in proposals and presentations that have landed six-figure contracts. I also excel in merging business and user needs into high-quality, cost-effective design solutions while keeping within budgetary constraints.
